

CLINICAL RESEARCH MANAGER

Biomapas – Clinical Trials & Regulatory Solutions.

Biomapas is a team of experts providing clinical development, marketing authorization and post-marketing support for Biotech, Pharma and Medtech companies. For more than 15 years Biomapas is supporting companies in Europe and CIS region.

At the moment we are looking for goal oriented person to join our team in **Clinical Research Manager** role.

Main Tasks

- The start-up, monitoring and close-out management of new and ongoing clinical trials.
- Assigned clinical trials budget oversight.
- Full range communication with clinical trial sponsor including design and negotiation of service proposals, budgets and contracts.
- Supervising CRAs in in-house and on-site monitoring, filing, and clinical trial administration.
- Oversight of adherence to SOPs and ICH-GCP.

Experience, required skills and competencies

- Education in Science/Health discipline.
- Previous experience in Clinical Trials (CRA or CRM position).
- Excellent knowledge of English and Russian, both verbal and written.
- Strategic thinking, innovative and creative approach.
- Excellent planning and decision making skills.
- Ability to travel (30 – 50 % of time).

If you have any questions or would like to find out more about this role, we will be glad to discuss with you. Please, contact us by e-mail personalas@biomapas.eu or call directly to HR and Training Manager Raimonda Klimiene +370 698 15736.
